The number above stated,	-	-	-	166
--------------------------	---	---	---	-----

The number of lunatic paupers from the several counties, and from the city of Baltimore, who have received the benefits of this institution during the year amount to 74, and respectively as follows :

Counties.	No.	Cured.	Discharged & improved	Died.	Remaining under care

The number of private lunatic patients in the house at the close of the year was 52, making a total of 112. The Board of Visitors beg leave to inform your honorable body, that the institution cannot support a larger number of pauper patients than are now under care. The building is only designed to accommodate 120 of all classes, with their attendants; and 60 is the number of paupers required to be accommodated at all times by act of Assembly. It is therefore respectfully suggested, that some plan should be devised to meet the increase of insanity, an increase fearful to contemplate.

The amount received for patients during the year was \$18,624 14

The amount expended for the support of the Institution,	21,345 72
The amount expended in building,	4,000 00

Making a total expenditure of	\$25,345 72
-------------------------------	-------------

Of which sum 5,300 were borrowed on interest, for building, furniture and necessary repairs. The institution is moreover indebted about 3,000, a balance on new building and for current expenses in the year, \$7,200, making an entire indebtedness of \$15,500—against which there are of good debts due to the institution \$6,500, leaving a balance of \$9,000, to be paid, and for which, no means are provided.

Respectfully submitted,

By order of the Board,

R. S. STUART, President

Md. Hospital.
